ABOUT OUR COMPANY

GovernmentFrameworks.com is a comprehensive solution for Government leaders who desire sustainable transformation and continuous improvement. The Local Government Framework© is a proven low risk method, for digital and workforce governance, that communicates alignment to community needs, provides greater visibility and increased service capabilities. We deliver this Framework internationally (Australia, New Zealand, Canada & US), from small rural First Nation Councils to some of the largest city councils worldwide.

WE CAN HELP YOU

1 Increase record governance, decrease work.

- Normally onerous to manage, through automation of your document policies you can increase compliance, and accessibility.
- Don't lose anything with complete and automatic version control, audit trail, and retention.
- Let the system police itself by automatically controlling document naming conventions.
- Place documents on legal hold and create security-based redactions.
- Protect confidential files.

2 Accelerate council productivity through records accessibility & efficiency with powerful search on keywords or phrases within documents metadata, content, and annotations across multiple documents.

3 Provide flexible access to public records when your residents want it with 24/7 access via your website, while conserving time and resources.

4 Maintain document integrity with a single point of truth for all stakeholders.

5

Delegate responsibilities where they belong

- Empower departments to manage documents that they are the subject matter experts of.
- Apply security to delegate with confidence.
- Encourage collaboration between all departments.

6

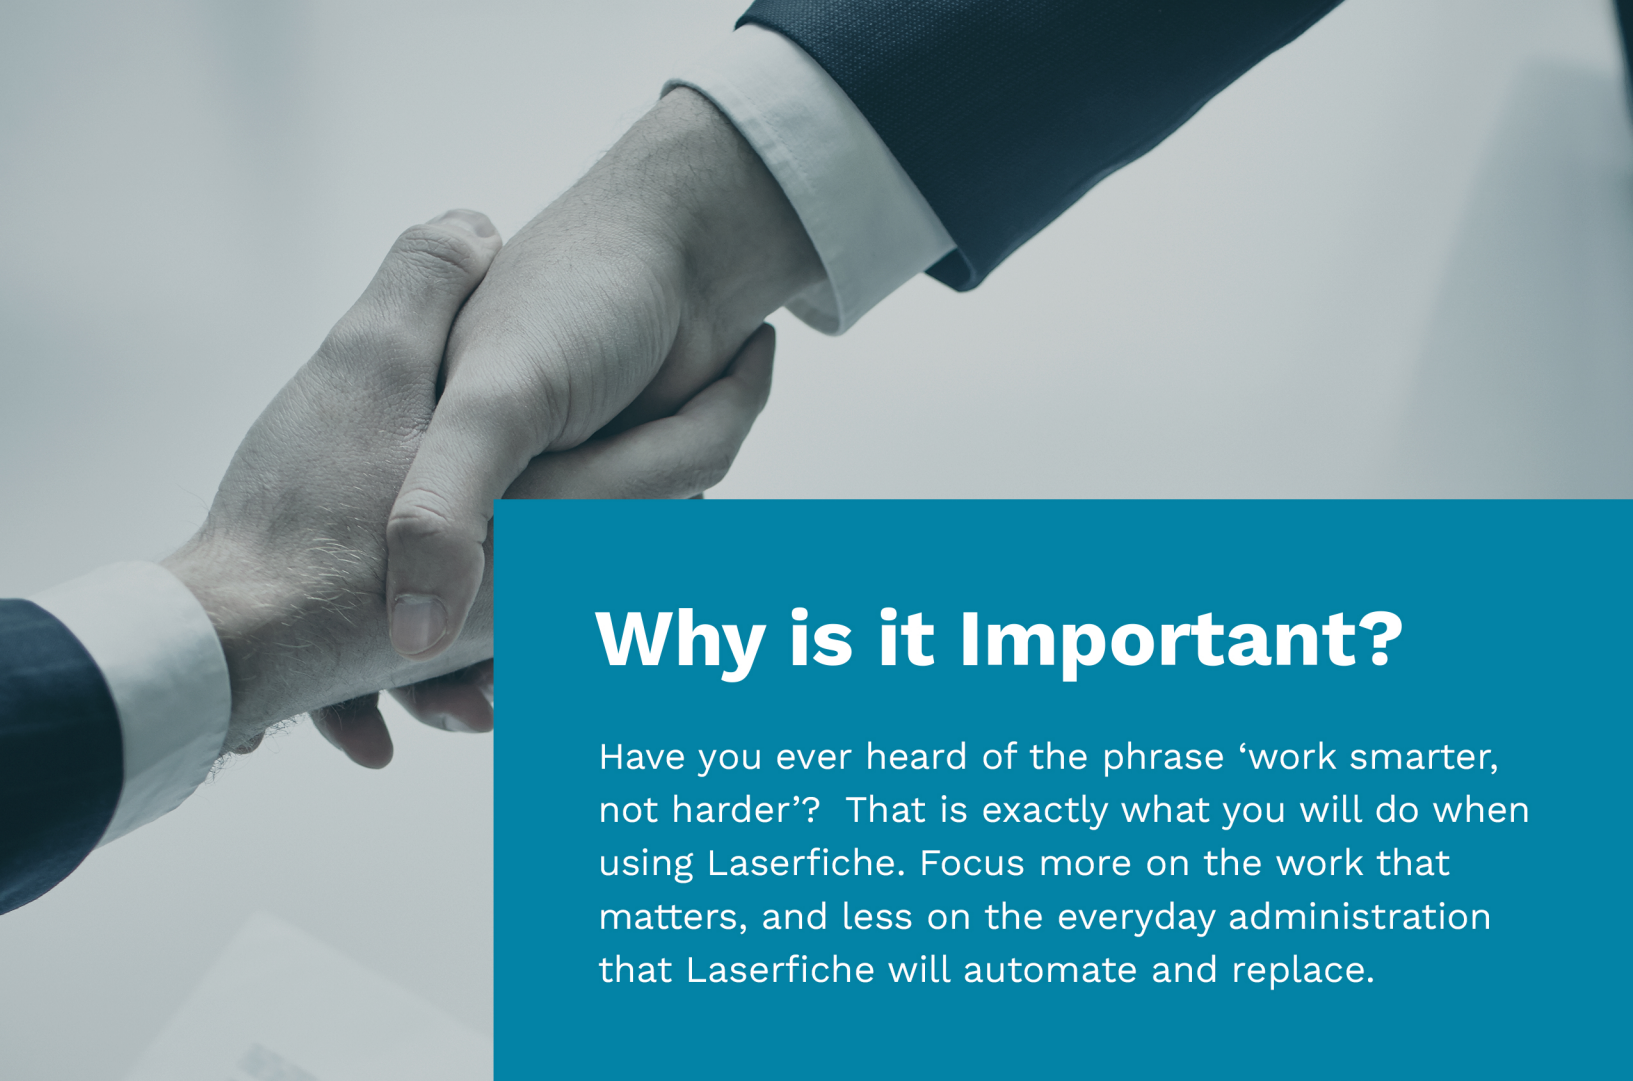

Digitisation of your paper records

- Reduce storage expense.
- Increase availability and enable remote access.
- Stop wasting time on manual filing.

7

Business Process Automation

- Optimise internal and external process to deliver services faster with workflow automation.
- Work smarter with online forms that improve accuracy and automatically assign tasks to the right person.
- Automatic task routing.
- Route approval and escalations without any human intervention.
- No code design tools with built in activities to optimise solution design.
- Fast track automation with a template, at your disposal, from day one.

Why is it Important?

Have you ever heard of the phrase ‘work smarter, not harder’? That is exactly what you will do when using Laserfiche. Focus more on the work that matters, and less on the everyday administration that Laserfiche will automate and replace.

What are the next steps?

We knew you’d be interested – contact us here and one of our team members will reach out with more information.
